INTERNATIONAL SEARCH REPORT

International application No PCT/JP2005/015173

A. CLASSIFICATION OF SUBJECT MATTER INV. G06F1/24

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols) $\mathsf{G06F}$

Documentation searched other than minimum documentation to the extent that such documents are included. In the fields searched

Electronic data base consulted during the international search (name of data base and, where practical, search terms used)

EPO-Internal, PAJ, WPI Data

Category*	Cliation of document, with indication, where appropriate, of the relevant passages	Relevant to dalm No.

Further documents are listed in the continuation of Box C.	X See patent family annex.
* Special categories of cited documents: "A" document defining the general state of the last which is not considered to be of particular relevance "E" sailer document but published on or after the International filting date "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified) "O" document referring to an oral disclosure, use, exhibition or other means. "P" document published prior to the international filling date but later than the priority date claimed	"I" later document published after the International filing date or priority date and not in conflict with the application but alter to understand the principle or theory underlying the invention. "X" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is taken alone. "Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such document is combined with one or more other such document in the art. "8" document member of the same patent family.

INTERNATIONAL SEARCH REPORT

International application No. PCT/JP2005/015173

Box II Observations where certain claims were found unsearchable (Continuation of Item 2 of first sheet)
This international Search Report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:
1. Claims Nos.: because they relate to subject matter not required to be searched by this Authority, namely:
2. Cialms Nos.: because they relate to parts of the International Application that do not comply with the prescribed requirements to such an extent that no meaningful international Search can be carried out, specifically:
3. Claims Nos.: because they are dependent plaims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).
Box III Observations where unity of invention is lacking (Continuation of Item 3 of first sheet)
This international Searching Authority found multiple inventions in this international application, as follows:
see additional sheet
As all required additional search fees were timely paid by the applicant, this international Search Report covers all searchable claims.
As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
3. As only some of the required additional search fees were timely paid by the applicant, this international Search Report covers only those claims for which fees were paid, specifically claims Nos.:
No combined and taken a combined company through considering the company of the form of the company of the comp
4. No required additional search fees were timely paid by the applicant. Consequently, this international Search Report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:
1~5, 20
Remark on Protest The additional search fees were accompanied by the applicant's protest.
No protest accompanied the payment of additional search fees.

Form PCT/ISA/210 (continuation of first sheet (2)) (January 2004)

International Application No. PCT/ JP2005/015173

FURTHER INFORMATION CONTINUED FROM PCT/ISA/ 210

This International Searching Authority found multiple (groups of) inventions in this international application, as follows:

1. claims: 1-5, 20

Circuit device comprising global and local reset circuit

2. claims: 6-8

Circuit device comprising two clock circuits to output clock signals

3. claims: 9,10

Circuit device comprising a second circuit to provide information on a value of a counter signal when a first circuit provides a signal based on the value of the counter

4. claims: 11-19

Circuit device comprising a clock circuit to output a clock signal having phase zero, depending on the value of a counter and of a clock
